## Worldwide power solutions for technology that travels

powermonkey classic is the essential travel companion providing portable power for your gadgets when you need it most.

Imagine you're on an important business trip and you've left your mobile phone charger at home, or trekking through Thailand about to take that life-defining picture and your camera dies... avoid nightmare scenarios like this with powermonkey classic's reserve power supply!

Small, agile and powerful, the revolutionary powermonkey classic can be left in your bag, car or desk and will be ready to provide you with emergency power when you need it most.

To keep the powermonkey classic at full strength just top up the supply with one of the included mains chargers and make sure you have power wherever you are in the world.

- Compatible with the majority of standard mobile phones including Nokia & Mini Nokia, Motorola, Samsung, Siemens & Sony Ericsson
- USB connector powers up iPods and accessories, MP3 players, PDAs, smart mobile phones, digital cameras, Bluetooth headsets and many more digital devices
